

Texas A&M University  
**Information about Research Studies**  
Summer Computing Academy 2019

**Information about research studies:** You are being informed that students participating in the camp may be asked to participate in a research study. In such a case we will inform you about the study and request consent from both you, the guardian, and the student. In such a scenario, we will provide you with a detailed description of the study along with an assessment of its benefits and risks. Students will have the option to participate in these research studies, participate but not have their data recorded, or not participate in these studies.

We routinely collect evaluations and feedback about our program from students and parents/guardians. Please note that programmatic data collected during the camp may be used in publications.

Kindly acknowledge that you have read this form. **If you have questions:** Please ask any questions you have now. If you have questions later, you may contact us at (979)-845-0219 or at [sca@hprc.tamu.edu](mailto:sca@hprc.tamu.edu).
