# Molecular Dynamics

- Computer simulation technique used to analyze the physical movements of atoms and molecules over time:

## **Newton's laws of motion**

- Calculate the forces acting on each atom and update their **positions** and **velocities** over each time step:

***Ab initio, semi-empirical, classical***

# *Ab initio* Simulation

- Uses first principles through **quantum mechanics** to simulate the motion of atoms in a system:

## **Density Functional Theory**

- Does **not** rely on empirical potentials or force fields:

## **Plane waves & pseudopotentials**

# *Ab initio* Molecular Dynamics

- Structure stability
- Diffusion processes
- Phase transitions
- Surface and interface dynamics
- Reaction mechanism and pathways
- Thermal properties
- Solvation dynamics
- .....

# *Ab initio* Molecular Dynamics

- AIMD exercise for **VASP** and **Quantum ESPRESSO**
  - 64-atom silicon supercell
  - finite-temperature (2000K)
  - 90 fs (30 steps, 3.0 fs time step)
  - NVT ensemble

# VASP - Vienna Ab initio Simulation Package

The Vienna Ab initio Simulation Package (VASP) is a computer program for atomic scale materials modelling from first principles.

# Quantum ESPRESSO

Quantum ESPRESSO is an integrated suite of open-source computer codes for electronic-structure calculations and materials modeling at the nanoscale.

- **Completely free**
- Highly customizable
- Strong community

<https://www.quantum-espresso.org/>

# NEC Vector Engine Card

- 8 cores per processor
- 48GB on-chip memory
- Double precision
- Low power consumption

# ACES Vector Engine Node

- dss node:
  - 8 NEC Vector Engine Cards
  - 48 core (2 sockets with 24-core per socket)
    - Intel Xeon 8268 (Cascade Lake)
  - 768 GB DDR4 Memory

### ACES Maintenance Status, October 10

The planned maintenance for the PCIe Gen5 composability fabrics has been completed. The PVCs in two Gen5 fabrics will remain unavailable until replacement components arrive tomorrow or next week.

### IMPORTANT POLICY INFORMATION

- **Unauthorized use of HPRC resources is prohibited and subject to criminal prosecution.**
- **Use of HPRC resources in violation of United States export control laws and regulations is prohibited.**
